Neptronic Welcomes New Agent in Boston

Montreal, Canada | July 23rd, 2019 – We are pleased to announce that HTS New England has officially joined Neptronic's global distribution network as an agent in the Boston area.

HTS is a custom HVAC equipment provider dedicated to creating success for all those involved with cooling and heating decisions – from selection, design and purchase, to installation and maintenance. Since 1992, HTS has been effectively communicating the newest HVAC technology and delivering efficient building infrastructure systems based on a strong understanding of the complexity of customers' needs.

“We are very excited to be representing Neptronic in New England,” said Mark LaFrance, Principal at HTS. He added, “Neptronic offers a broad array of market-leading humidification technology and they are focused on continued innovation to remain a market-leader. When combined with our knowledge and project management skills, we are able to maintain our commitment to our customers to deliver real success.”

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
