

Control Panel

Description

Neptronic builds customized control panels, which forms an important component of the Integrated Management System (IMS). To suit various requirements, the panels can be customized for different material options, voltage and power ratings as well as NEMA ratings compliant to UL508 standards.

Functions

- ✓ UL508 compliant panels with following options:
 - ✓ Material – Galvanized steel, pre-painted, stainless steel
 - ✓ Nema/IP ratings – Upto Nema 4X / IP56 ratings
 - ✓ Voltages – 24VAC/DC up to 600V/3 phase supply
- ✓ Panel mount touch screen
- ✓ Customized dimensions and options
- ✓ Pre-wired panels with incorporated controls when purchased with IMS App solutions.

Applications

- ✓ Rooftop zoning applications
- ✓ Fit-out projects for Fan Coil or Variable Air Volume (VAV) applications
- ✓ Humidifier integrated monitoring system
- ✓ Energy and heat recovery systems
